School of Management

SINCE : 1996

About us

Masters School of Management (MSM), Meerut was established in 1996 under the aegis of Siya Ram Kasturi Devi Educational Society (SKD) to meet the growing need for quality management education and research to all deserving students to hone their skills and shape careers. Since its inception almost three-decade ago-when with the opening of the Indian Economy, professional institutions were mushrooming to meet the growing demand of different kinds and levels of professionals, MSM, instead of diffusing its energies indifferent directions, consciously specialized in the domain of management education and research - strictly adhering to the ethos of specialization. As a result of its, MSM is constantly ranked high in management education – because many of its alumni are in the decision making positions in national and international business houses, its students won several national awards – in various management competitions and it provides research and consultancy services to the premier institutions –like the BN Yuganhar Centre of Rural Studies (BNYCSR), Lal Bahadur Shastri National Academy of Administration (LBSNAA) Mussoorie.

The curriculum and pedagogy of MSM, devised by eminent practitioners of science and arts of management and academics – is a judicious mix of practice and theory, in which practice has precedence over theory – so that the students develop – the skill and knowledge to solve the current or contemporary problems of organization and simultaneously develop the wisdom or business acumen to foresee the emerging issues and challenges and come out with innovative solutions. For this, in MSM the course syllabus with projects and internships- is delivered by the faculty members with robust academic achievement and adequate industrial experience /exposure, in collaboration with corporate executives and scholars of eminence.

Corporate honchos, professionals, and academics - working in the industrial, commercial, and knowledge hub of NCR; National Capital Territory of Delhi, NOIDA, Gurugram, and Faridabad, all at a convenient travel time of about one hour, frequently visit MSM to interact with students and faculty.

Ranking

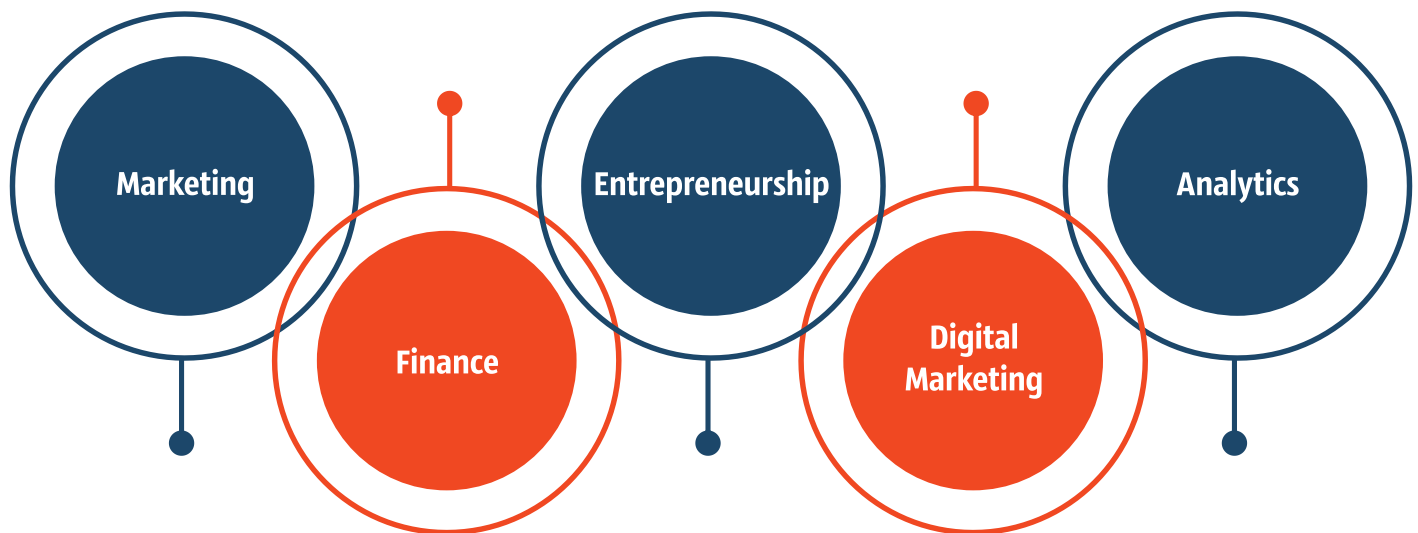

BBA Bachelor of Business Administration

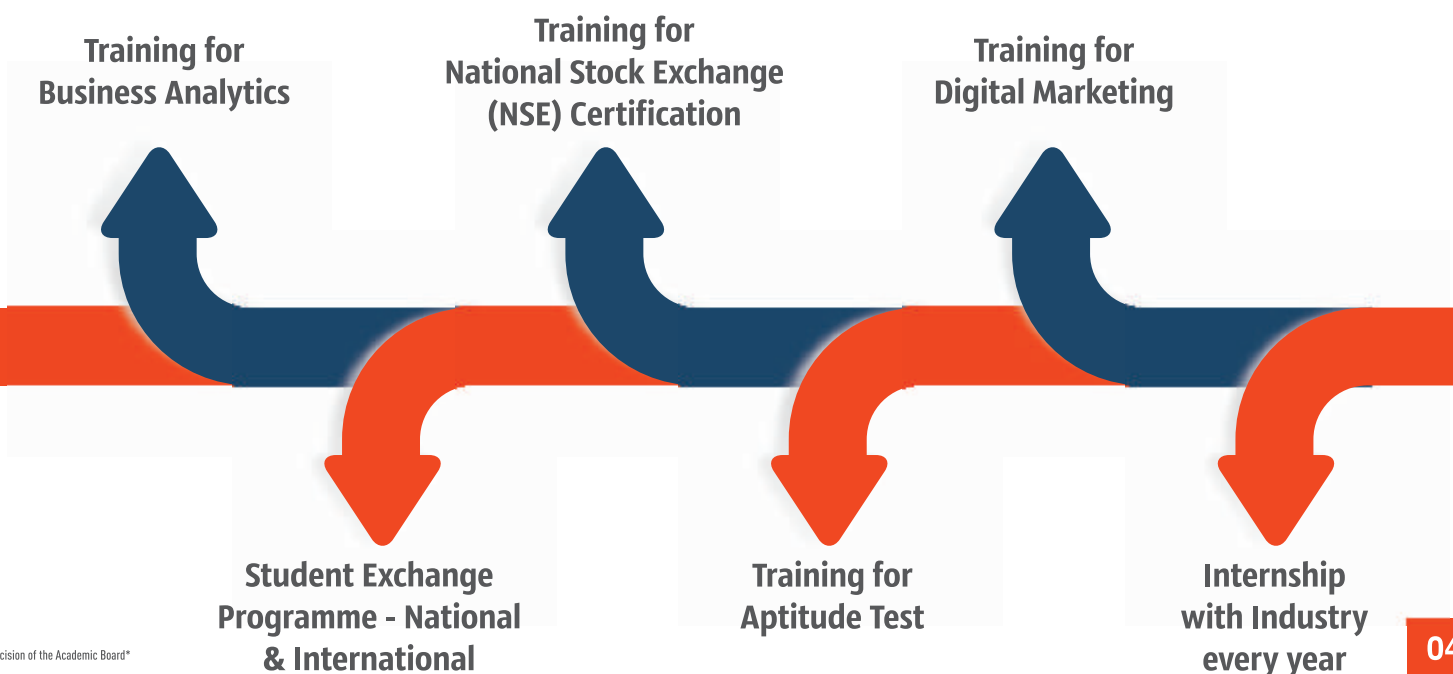

Master School of Management, a premier B-school in India for last 27 years, imbibing the nuances of management education, underlines the fact that learning potentials of youth very often impairs after secondary education. This happens largely because of lack of clarity of purpose, disconnect in skills and degree and many a times, students do not get appropriate learning environment. We sincerely endeavour to fill this gap by realizing that apart from prescribed curriculum a lot more is needed to shape the learnings of youth to make them employable. Now a days, the ever widening and deepening scenario of competition, a young graduate must have dynamic and standardised skill-sets as per the changing needs of corporate and society. Therefore, professional institutions need to go an extra mile to mark the difference.
